

We are very excited to tell you about our upcoming science events happening at St Michael's during the final half term of the year.

### **Science Afternoon - Thursday 4<sup>th</sup> July**

On Thursday 4<sup>th</sup> July the children will enjoy a science afternoon at school putting their enquiry skills into practise by taking part in a variety of investigations linked to their science topics.

### **Science Fair with Science Gateways - Thursday 4<sup>th</sup> July 3:40 - 5:15pm**

After school we will be hosting St Michael's Science Fair 2024. Children and parents are invited to the hall for a presentation and activities by Science Gateways, a company specialising in children's engagement with science. After the presentation, parents and children can then make their way to the year group stalls where there will be a range of investigations for children to take part in. Our budding young scientists will be on hand to support and explain the science behind the activities.

### **STEM Careers Afternoon - Friday 5<sup>th</sup> July 12pm - 3:30pm (HELP NEEDED\*)**

At St Michael's we want to inspire our children to be the thinkers of the future. The children will hear from a range of professionals who work in STEM careers. They will find out what the different jobs involve, how to access them and the impact they have.

These events cannot happen without the support of our fantastic parents and friends. You can help in a variety of ways:

1. We are asking for a £1 donation to help resource the above activities. This can be paid via ParentPay.
2. \*If you work, or know someone who works, within the STEM field and can spare the afternoon on Friday 5<sup>th</sup> July to come to school and inspire the children, please email the office [office@st-michaels.enfield.sch.uk](mailto:office@st-michaels.enfield.sch.uk) and mark your email **STEM Careers Afternoon**.
3. Attend and enjoy St Michael's Science Fair on Thursday 4<sup>th</sup> July with your child/children.
